Lift Your Game in Recruiting Bookkeepers

Get a reliable assessment of your candidates current bookkeeping skills and knowledge to enable you to make informed selection decisions by adding an assessment of technical competency to the information gathered through interviews and reference checking.

New Zealand Bookkeeper Test

This test was developed with the assistance of a number of NZICB members, and is a competency based assessment. The means you'll be able to see what level of capability a new staff member or contractor has, compared to the job you need them to do.

To look in more detail or to purchase, follow the link to our webpage for the [NZ Bookkeeper Test](#) where you can see some example questions and a sample candidate report.

If you just want to consider the ability of a candidate to understand double entry accounting look at our [Basic Double Entry Accounting Test](#) which costs only \$40 (discount does not apply to this test).

Why Use Accountests?

The difference between a candidate talking about their technical ability in an interview and proving what they can actually do in an objective, skills based test, improves your ability to make strong recruitment decisions.

All tests are reviewed annually and updated to reflect changes to taxation and financial legislation.
